

JONATHAN LAMBERT COOK, M.D.

Curriculum Vitae

Work Address:

5324 McFarland Dr. Suite 400
Durham, NC 27707
Duke University Medical Center Box 3915
Durham, NC 27710
(919) 419-4945
jonathan.cook@duke.edu

Citizenship: The United States of America

EDUCATION:

The University of Pennsylvania, Department of Dermatology (1996-1997):

Philadelphia, Pennsylvania
Fellowship in Mohs micrographic and dermatologic surgery; Dr. Leonard Dzubow, director
Experienced in Mohs micrographic surgery, reconstructive surgery, hair transplantation, and laser surgery (UltraPulsed carbon dioxide, continuous wave carbon dioxide, pulsed dye, Q-switched ruby, Q-switched/frequency doubled Nd:YAG, diode hair removal lasers)

Emory University, Department of Dermatology (1993-1996):

Atlanta, Georgia
Residency in dermatology

Harvard Medical School, New England Deaconess Hospital, Department of Medicine (1992-1993):

Boston, Massachusetts
Internship in Internal Medicine

The Medical University of South Carolina (1988-1992):

Charleston, South Carolina
Doctor of Medicine degree

The College of Charleston (1984-1988):

Charleston, South Carolina
Bachelor of Arts degree (German)

ACADEMIC APPOINTMENTS:

Director of Dermatologic Surgery, Duke University Medical Center, March 1999-present

Professor, Department of Medicine (Dermatology), Duke University School of Medicine, October 2007-present

Associate Professor, Department of Medicine (Dermatology), Duke University School of Medicine, October 2001-2007

Assistant Professor, Department of Surgery, Duke University School of Medicine, March 1999-present

Assistant Professor, Department of Medicine (Dermatology), Duke University School of Medicine, March 1999-October 2001

Clinical Director of Satellite Practices, Department of Dermatology, The University of Pennsylvania School of Medicine, 1998-1999

Assistant Professor, Department of Dermatology, The University of Pennsylvania School of Medicine, 1997-1999

SPECIALTY CERTIFICATION:

Board certified by the American Board of Dermatology, 1996, 2006
Certified by the National Board of Medical Examiners: 99th percentile on all sections (1990, 1992, 1993)

LICENSURE:

Licensed to practice medicine in the State of North Carolina and in the Commonwealth of Pennsylvania

EDUCATIONAL AWARDS AND HONORS:

The Medical University of South Carolina:

Valedictorian, Class of 1992

Alpha Omega Alpha, elected as a junior medical student, 1991

Phi Kappa Phi Fellowship for Graduate Education

South Carolina Medical Association Scholarship

Bell Scholarship

Dr. and Mrs. Richard Dobson Scholarship

Southern Medical Association Scholarship

Research Fellowship, Department of Surgery, Division of Cardiothoracic Surgery

Upjohn Award: Top ranking student in the clinical sciences

Lange Publications Award: Top ranking student in the basic sciences

Holbrook Award: Best student of Pathology, Laboratory Medicine, Microbiology, and Immunology

Letters for exemplary performance from the chairmen of Surgery, Medicine, and Pediatrics

The College of Charleston:

Valedictorian, Class of 1988

Summa cum Laude

Alumni Medal for the graduate with the highest academic achievement

Selected as one of the five most distinguished graduates, Class of 1988

Medal for the outstanding graduate in modern languages

Selected as the most outstanding student of organic and inorganic chemistry
Phi Kappa Phi academic honor society
Sigma Alpha Phi academic honor society
Dean's List, all semesters 1984-1988
Early acceptance to medical school, 1985
Who's Who in American Colleges and Universities

CLINICAL AWARDS AND HONORS:

American Society for Dermatologic Surgery preceptor with "national recognition" for skin cancer/general dermatologic surgery, 2002-present
"Best Doctors in America," 2005, 2006, 2007, 2008, 2009, 2010
"America's Top Doctors," 2004, 2005, 2006, 2007, 2008, 2009, 2010
"Best Doctors in North Carolina," 2004, 2005, 2006, 2007, 2008, 2009, 2010
"America's Top Doctors for Cancer," 2007, 2008, 2009, 2010
"Healthy Living Magazine's Top Doctors," 2009
"America's Top Dermatologists," 2009, 2010
The College of Charleston Alumni Association Service Award in Medicine/Physician of the Year, 2009

PROFESSIONAL SOCIETY MEMBERSHIPS:

Fellow, The American Academy of Dermatology
Fellow, The American College of Mohs Surgery
Fellow, The American Society for Dermatologic Surgery
Member, The Association of Academic Dermatologic Surgeons
Member, The International Transplant Skin Cancer Collaborative
Honorary member, The Florida Society of Dermatologic Surgeons

SCIENTIFIC PRESENTATIONS:

Reconstructive cases from Duke University. The American Society for Dermatologic Surgery: State of the Art in Cosmetic and Reconstructive Surgery, Miami, December, 2010.

Cerebral air emboli. The American Society for Dermatologic Surgery: State of the Art in Cosmetic and Reconstructive Surgery, Miami, December, 2010.

The aesthetic significance of the face. The American Society for Dermatologic Surgery: State of the Art in Cosmetic and Reconstructive Surgery, Miami, December, 2010.

Mohs micrographic surgery for the treatment of cutaneous melanoma of the head and neck. The Southeastern Consortium of Dermatology, Duke University Medical Center, October, 2010.

The aesthetic importance of the face. The Division of Plastic Surgery Grand Rounds, Duke University Medical Center. October, 2010.

The aesthetic value of the face. The American Society for Dermatologic Surgery's regional course on Fillers and Injectables. Chapel Hill, NC, June, 2010.

Masters in reconstructive surgery. The American College of Mohs Surgery Annual Meeting, New York, May, 2010.

How would you reconstruct it? The American College of Mohs Surgery Annual Meeting, New York, May, 2010.

The prevention of aesthetic complications in reconstructive surgery of the face. The American Academy of Dermatology Annual Meeting, Miami, March, 2010.

Reconstruction of the lips. The American Academy of Dermatology Annual Meeting, Miami, March, 2010.

The reconstruction of full-thickness nasal wounds, The Leonard Lewis Memorial lecture, The Florida Society of Dermatologic Surgeons' annual meeting, Orlando, November, 2009.

Reconstructive surgery cases from Duke University, The Leonard Lewis Memorial lecture, The Florida Society of Dermatologic Surgeons' annual meeting, Orlando, November, 2009.

Mohs micrographic surgery for skin and soft tissue cancers. The Division of Otolaryngology/Head and Neck Surgery. Grand Rounds, Duke University Medical Center, October, 2009.

The aesthetic significance of the face: Lessons from reconstructive surgery successes and failures. The Southeastern Consortium of Dermatology, The Medical University of South Carolina, Charleston, October, 2009.

Selected topics in cutaneous oncology and surgery. The American Academy of Dermatology's Practical Approaches to Patient Problems course, Chicago, August, 2009.

Panel discussions. The American Academy of Dermatology's Practical Approaches to Patient Problems course, Chicago, August, 2009.

Ergonomic suggestions to improve physician performance. The American Academy of Dermatology's Practical Approaches to Patient Problems course, Chicago, August, 2009.

Discussions in dermatologic surgery. The Georgia Society of Dermatologists annual meeting, Ponte Vedra, FL, June, 2009.

The aesthetic prominence of the face: lessons from reconstructive surgery successes and failures. The Georgia Society of Dermatologists annual meeting, Ponte Vedra, FL, June, 2009.

Mohs micrographic surgery for the treatment of cutaneous melanoma of the head and neck. The Georgia Society of Dermatologists annual meeting, Ponte Vedra, FL, June, 2009.

Facial flaps. The American College of Mohs Surgery annual meeting, Austin, TX, April, 2009.

The undesirable result in reconstructive surgery, moderator. The American College of Mohs Surgery annual meeting, Austin, TX, April, 2009.

The reconstruction of full-thickness nasal wounds. The American College of Mohs Surgery annual meeting, Austin, TX, April, 2009.

Mohs surgery for the management of cutaneous melanoma of the head and neck. The multi-specialty melanoma group, Duke University Medical Center, February, 2009.

Reconstructive alternatives for Mohs surgical wounds. The Division of Plastic Surgery Grand Rounds, Duke University Medical Center, January, 2009.

Clinical pearls in dermatologic surgery. The Mid-winter Dermatology Meeting, The University of Vermont, Stowe, Vermont, January, 2009.

Mohs micrographic surgery for the treatment of melanoma of the head and neck. The Mid-winter Dermatology Meeting, The University of Vermont, Stowe, Vermont, January, 2009.

The lateral ala's volume and position are critical determinants of the aesthetic success of nasal reconstruction. The American Dermatologic Association's 128th Annual Meeting, Asheville, North Carolina, August, 2008.

The undesirable result in reconstructive surgery, moderator. The American College of Mohs Surgery annual meeting, Vancouver, BC, Canada, May, 2008.

The bilobed and dorsal nasal flaps: Suggestions for improving flap designs and executions. The American College of Mohs Surgery annual meeting, Vancouver, BC, Canada, May, 2008.

Mohs micrographic surgery complicated by a cerebrovascular accident attributed to intra-operative air emboli. The American College of Mohs Surgery annual meeting, Vancouver, BC, Canada, May, 2008.

Folded forehead flaps for the reconstruction of full-thickness nasal wounds: Interesting ways to avoid the need for intra-nasal flaps to replace missing nasal lining. The American College of Mohs Surgery annual meeting, Vancouver, BC, Canada, May, 2008.

Mohs micrographic surgery for cutaneous melanoma of the head and neck. The third annual University of North Carolina Melanoma Conference: A multi-specialty perspective. The University of North Carolina at Chapel Hill, February, 2008.

Sheedy M, Cook JL. *Merkel cell hyperplasia; does this have malignant potential?* Gross and Microscopic Session, The American Academy of Dermatology Annual Meeting, San Antonio, Texas, February, 2008.

Mohs micrographic surgery. The Division of Plastic Surgery Grand Rounds, Duke University Medical Center, August, 2007.

Coding dilemmas in dermatologic surgery. The American College of Mohs Micrographic Surgery and Cutaneous Oncology, Naples, Florida, May, 2007.

The undesirable result in reconstructive surgery, moderator. The American College of Mohs Micrographic Surgery and Cutaneous Oncology, Naples, Florida, May, 2007.

Reconstructive alternatives – How would you reconstruct it? The American College of Mohs Micrographic Surgery and Cutaneous Oncology, Naples, Florida, May, 2007.

The paramedian forehead flap. . The American College of Mohs Micrographic Surgery and Cutaneous Oncology, Naples, Florida, May, 2007.

Reconstruction of the nose with pedicled flaps. The American Academy of Dermatology Annual Meeting, Washington, DC, February, 2007.

Coding dilemmas in dermatologic surgery, moderator. The American College of Mohs Micrographic Surgery and Cutaneous Oncology, Scottsdale, Arizona, April, 2006.

The undesirable result in reconstructive surgery, moderator. The American College of Mohs Micrographic Surgery and Cutaneous Oncology, Scottsdale, Arizona, April, 2006.

Mohs micrographic surgery and the geriatric patient. The Division of Geriatrics Grand Rounds, Duke University, July, 2006.

Reconstruction of the nose with pedicled flaps. The American Academy of Dermatology Annual Meeting, San Francisco, March, 2006.

The reconstruction of the nose with rotation flaps, the Advanced Surgery Course, The American Academy of Dermatology Annual Meeting, San Francisco, March, 2006.

Unusual cutaneous oncology cases from Duke University. The Mid-winter Dermatology Meeting, The University of Vermont, Stowe, Vermont, January, 2006.

Discussions in Dermatologic Surgery. The Mid-winter Dermatology Meeting, The University of Vermont, Stowe, Vermont, January, 2006.

The turn-over nasolabial flap: A cadaveric example. The American College of Mohs Micrographic Surgery and Cutaneous Oncology Advanced Anatomy and Reconstructive Surgery Cadaver Course, Atlanta, October, 2005.

Moderator, Poster discussion session on skin cancer and reconstructive surgery. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Atlanta, October, 2005.

Advanced facial reconstruction. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Atlanta, October, 2005.

Martinez JC, Cook JL. *Is there a role for elective lymphadenectomy in patients with cutaneous squamous cell carcinoma?* The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Atlanta, October, 2005.

Mohs micrographic surgery. Division of Plastic Surgery Grand Rounds, Duke University Medical Center, September, 2005.

Auricular Reconstruction. The Southeastern Consortium for Dermatology. The University of Virginia, Charlottesville, Virginia, September, 2005.

Segal J, Cook JL. *Lentigo maligna: a rare case of metastasis?* Gross and Microscopic Session, The American Academy of Dermatology Annual Meeting, New Orleans, February, 2005.

Single staged reconstructive procedures for complex nasal defects. The Advanced Surgery Course, The American Academy of Dermatology Annual Meeting, New Orleans, February, 2005.

Four Flaps Forum. The American Academy of Dermatology Annual Meeting, New Orleans, February, 2005.

Mohs micrographic surgery. The University of North Carolina Graduate Nursing CME course, Chapel Hill, NC, January, 2005.

Fangman W, Herman C, Cook J, Selim A. *Post-radiation sarcoma.* The American Society for Dermatopathology, Boston, October, 2004.

The aesthetic significance of the nasolabial folds in facial reconstruction. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, San Diego, October, 2004.

Moderator, The masters' panel of advanced reconstruction. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, San Diego, October, 2004.

The flip side of flaps: Advanced facial reconstruction. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, San Diego, October, 2004.

Mohs micrographic surgery. Combined Divisions of Plastic Surgery and Otolaryngology Grand Rounds, Duke University Medical Center, July, 2004.

Lessons from imperfect facial reconstructive procedures. The South Carolina Dermatologic Association annual meeting, Charleston, SC, March, 2004.

Unusual cutaneous oncology cases from Duke University. The South Carolina Dermatologic Association annual meeting, Charleston, SC, March, 2004.

The aesthetic reconstruction of the face. Division of Dermatology Grand Rounds, Duke University Medical Center, March, 2004.

Surgical complications: a panel discussion. Live internet lecture on www.mdlive.net, January, 2004.

Kaplan A, Cook JL. *The incidence of chondritis and perichondritis associated with auricular cartilage manipulations during Mohs' and reconstructive surgery.* The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

Cook JL, Tuveson A. *Primary extra-mammary Paget's disease: a neoplasm with metastatic capability.* The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

The Spear (turn-over nasolabial) flap. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

The bilobed and pedicled nasolabial flaps in nasal reconstruction. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

Ergonomic suggestions to improve physician performance. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

In defense of prophylactic antibiotics in reconstructive surgery. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

Lessons from imperfect reconstructive surgery. The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, New Orleans, October, 2003.

Mohs micrographic surgery, Division of Plastic Surgery Grand Rounds, Duke University Medical Center, September, 2003.

Mohs micrographic surgery, Division of Head and Neck Surgery Grand Rounds, Duke University Medical Center, August, 2003.

Etter L, Cook J. *Primary mucinous adenocarcinoma of the skin.* Gross and Microscopic Session, The American Academy of Dermatology Annual Meeting, San Francisco, March, 2003.

Moderator, Non-melanoma skin cancer poster discussion session. The American Academy of Dermatology annual meeting, San Francisco, March, 2003.

Four flap forum: The bilobed transposition flap. The American Academy of Dermatology Annual Meeting, San Francisco, March, 2003.

Nasal reconstruction for the dermatologic surgeon. The American Academy of Dermatology annual meeting, San Francisco, March, 2003.

Surgical instrumentation. The American Academy of Dermatology Annual Meeting, San Francisco, March, 2003.

Reconstruction of a full-thickness alar wound with a single operative procedure. The American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Chicago, October, 2002.

Recurrent trichilemmal carcinoma with perineural invasion and cytokeratin 17 positivity. The American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Chicago, October, 2002.

Interesting reconstructive cases from Duke University, The Combined American Society for Dermatologic Surgery and American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Chicago, October, 2002.

Co-director, *The flap reconstruction of the nose,* The American Society for Dermatologic Surgery annual meeting, Chicago, October, 2002.

Mohs micrographic surgery for the treatment of non-melanoma skin cancers. The Division of Plastic Surgery Grand Rounds, Duke University, September, 2002.

Perone J, Cook J. *Tattoo allergy: Reaction to purple pigmentation.* Gross and Microscopic Session, The American Academy of Dermatology Annual Meeting, New Orleans, February, 2002.

Surgical instrumentation. The American Academy of Dermatology Annual Meeting, New Orleans, February, 2002.

Nasal reconstruction for the intermediate dermatologic surgeon. The American Academy of Dermatology annual meeting, New Orleans, February, 2002.

Four flap forum: The bilobed transposition flap. The American Academy of Dermatology Annual Meeting, New Orleans, February, 2002.

Auricular reconstruction, The Divisions of Plastic and Head and Neck Surgery combined Grand Rounds, Duke University, February, 2001.

The reconstruction of facial defects following Mohs micrographic surgery. The Divisions of Plastic and Head and Neck Surgery combined Grand Rounds, Duke University, December, 2001.

Predictable tissue shrinkage during frozen section preparation of Mohs micrographic surgical specimens. The American Society of Mohs Micrographic Surgery Histotechnologists' annual meeting, Dallas, October, 2001.

Primary mucinous adenocarcinoma of the skin: treatment with Mohs micrographic surgery. The American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Dallas, October, 2001.

Metastatic extra-ocular sebaceous carcinoma. The American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Dallas, October, 2001.

Complications of Mohs micrographic surgery: A one-year prospective study. The American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Dallas, October, 2001.

Controversies surrounding the use of Mohs micrographic surgery. The Division of Plastic Surgery Grand Rounds, Duke University, August, 2001.

Basics of cutaneous surgery. The Duke University Dermatology for Non-dermatologists Annual CME course, Myrtle Beach, SC, June, 2001.

Non-melanoma skin cancer. The Duke University Dermatology for Non-dermatologists Annual CME course, Myrtle Beach, SC, June, 2001.

Nasal reconstruction. The Divisions of Head and Neck and Plastic Surgery combined Grand Rounds, Duke University Medical Center, June, 2001.

Mohs micrographic surgery for the treatment of non-melanoma skin cancers. The Division of Geriatrics Grand Rounds, Duke University, April, 2001.

Nasal reconstruction for the intermediate dermatologic surgeon. The American Academy of Dermatology annual meeting, Washington, DC, March, 2001.

Mohs micrographic surgery for the treatment of non-melanoma skin cancers. The Department of Family Medicine Grand Rounds, Duke University Medical Center. December, 2000.

Skin cancers. London Drug Symposium, Vancouver, British Columbia, October, 2000.

Gardner E, Cook J. *Predictable tissue shrinkage during frozen section preparation of Mohs' micrographic surgical specimens.* The American College of Mohs Micrographic Surgery and Cutaneous Oncology annual meeting, Denver, October, 2000.

The reconstruction of intermediate sized nasal wounds. The Southeastern Consortium for Dermatology, The Medical University of South Carolina, Charleston, October, 2000.

Basics of cutaneous surgery. The Duke University Dermatology for Non-dermatologists Annual CME course, Myrtle Beach, SC, June, 2000.

Non-melanoma skin cancer. The Duke University Dermatology for Non-dermatologists Annual CME course, Myrtle Beach, SC, June, 2000.

Nasal reconstruction for the intermediate dermatologic surgeon. The American Academy of Dermatology annual meeting, San Francisco, March, 2000.

Surgical reconstruction of the forehead. The American Academy of Dermatology annual meeting, San Francisco, March, 2000.

Mohs micrographic surgery for the treatment of non-melanoma skin cancers. The Division of Head and Neck Surgery Grand Rounds, Duke University, February, 2000.

Mohs micrographic surgery for the treatment of non-melanoma skin cancers. The North Carolina Dermatologic Association, Wrightsville Beach, NC, January, 2000.

Visiting Professor, Southeastern Regional Health Care Center CME Dermatology, Fayetteville, NC, October, 1999.

The future of academic dermatologic surgery. The Association of Academic Dermatologic Surgeons, Chicago, October, 1999.

Non-melanoma skin cancers. The Duke University Dermatology for Non-dermatologists Annual CME course, Myrtle Beach, SC, June, 1999.

Melanoma and non-melanoma skin cancers. The Department of Surgery Grand Rounds, Duke University, June, 1999.

Mohs micrographic surgery. The Division of Plastic Surgery Grand Rounds, Duke University, June 1999.

The management of non-melanoma skin cancers. Multi-disciplinary oncology conference, Rex Hospital, Raleigh, North Carolina, June, 1999.

The surgical management of non-melanoma skin cancers. The Greensboro Dermatologic Society, Greensboro, NC, May, 1999.

The lateral femoral cutaneous nerve block produces sufficient anesthesia to allow the harvesting of split-thickness skin grafts from the lower extremity. The American Society for Dermatologic Surgery annual meeting, Miami Beach, May, 1999.

Rotation flaps in dermatologic surgery. The American Academy of Dermatology annual meeting, New Orleans, March, 1999.

Neurotropic squamous cell carcinoma: therapeutic options. The Philadelphia Dermatologic Society, November, 1998.

Random pattern cutaneous flaps in nasal reconstruction. The Department of Head and Neck Surgery Soft Tissue Workshop, The University of Pennsylvania, November, 1998.

Complications of dermatologic surgery. Division of Dermatology, Duke University, September, 1998.

The bilobed flap in nasal reconstruction. The American Academy of Dermatology annual meeting, February, 1998.

Complications of dermatologic surgery. The Duhring Lecture, The University of Pennsylvania, December, 1997.

Mohs micrographic surgery. The Department of Dermatology, Stanford University, February, 1997.

Mohs micrographic surgery. The Department of Dermatology and Cutaneous Surgery, The University of South Florida, February, 1997.

Diffuse dermal angiomatosis. Gross and Microscopic Session, The American Academy of Dermatology annual meeting, January, 1995.

Multiple case presentations to the Atlanta Dermatologic Association and to the Southeastern Consortium of Dermatology.

Spinale F, Tomita M, Zellner J, Cook J, Crawford F, Zile M. Collagen Remodeling during Development and with Regression from Supraventricular Tachycardia (SVT) Induced Cardiomyopathy. Abstract and Poster Session, The American Heart Association annual meeting, Dallas, 1990.

Collagen remodeling during development of and with regression from supraventricular tachycardia (SVT) induced cardiomyopathy. Horace B. Smythe Surgical Lecture Series, The Medical University of South Carolina, 1989.

COMMITTEE MEMBERSHIP:

Member, American Board of Dermatology Re-certification committee 1998-2001, 2003-2006.

Assistant Editor, *Dermatologic Surgery*, 2004-present

Contributing Editor, *Dermatologic Surgery*, 1999-2004

Contributing Editor, *Skin and Aging*, 2001-2002

Peer reviewer, *The Journal of the American Academy of Dermatology*

Peer reviewer, *Dermatologic Surgery*

Peer reviewer, *The Indian Journal of Dermatology, Venereology, and Leprology*

Peer reviewer, *The Archives of Dermatology*

Peer reviewer, *Clinical Medicine: Dermatology*

Peer reviewer, *Ophthalmic Plastic and Reconstructive Surgery*

Member, Committees for The Center for Human Appearance, Quality Assurance, and Resident Selection, The Department of Dermatology, The University of Pennsylvania

Member, Anesthesiology Chairman Search Committee, Duke University, 2001

Mentor for the North Carolina School of Science and Math, 2001-2003

American Society for Dermatologic Surgery Domestic Violence volunteer surgeon

American Society for Dermatologic Surgery volunteer mentor to minority students and physicians

Medical policy reviewer for BlueCross/BlueShield of North Carolina, 2003

Nominated for the Board of Directors of the American College of Mohs Micrographic Surgery and Cutaneous Oncology, 2003

Invited participant, The American Academy of Dermatology's Leadership Forum, 2003
Deemed Equivalency Task Force, The American College of Mohs Micrographic Surgery and Cutaneous Oncology, 2004
Member of the scientific committee for the American College of Mohs Micrographic Surgery and Cutaneous Oncology's annual meeting, 2004-2005
Chairman of the scientific committee and meeting director for the 2006 annual meeting of the American College of Mohs Micrographic Surgery and Cutaneous Oncology
The Board of Directors of the American College of Mohs Micrographic Surgery and Cutaneous Oncology, 2006-2009
Duke University Medical Center's Private Diagnostic Clinic, customer service award, 2006.
American Dermatological Association, 2008-present
The PDC retirement committee of the Duke University Medical Center, 2009-present
Ethicon advisory board, 2010
Course co-director: The American Society for Dermatologic Surgery: State of the Art in Cosmetic and Reconstructive Surgery, Miami, December, 2010.
