Absent an agreement by a specific PDC clinic or clinical site to the contrary (which shall cover only that particular clinic or clinical site), the PDC reserves the right to use its professional judgment to determine what reasonable actions and safeguards it should take when communicating with its patients and individuals involved in our patients’ care. However, to help guide the PDC’s judgment, please complete the relevant portions below to help your PDC providers understand what alternative means of communication and disclosures to individuals involved in your care you would prefer so that the PDC providers may use this information to determine reasonable ways to inform you of your test results and other pertinent clinical information.
